

Microsoft Teams Calling

Make and Receive Telephone Calls using Microsoft Teams. We can provide Direct Routing or you can choose us in Operator Connect.

Make Microsoft Teams your Softphone

- ✓ Centralize your productivity and communication tools. Teams Calling unites all your Microsoft 365 apps with calling from any device.
- ✓ Call, chat, meet, and collaborate in one place. Softphone. Instant messaging. Audio and video conferencing. Collaboration apps. All included.
- ✓ Unlike Zoom, Slack, and Webex, Microsoft 365 with Teams Calling replaces the need for multiple apps and helps employees work smarter.
- ✓ Why use Atlantech Online for Teams Calling? Service reliability, unlimited calling, lower long term costs and top notch customer support.

Direct Routing or Operator Connect

DIRECT ROUTING

Customers can elect to have voice services run into the Microsoft Cloud through Direct Routing. Direct Routing ensures the ability to leverage our unlimited local and domestic long distance calling and unlock the full potential of a Microsoft Teams Phone System. Customers can also redirect calls to an alternate number in case of a Microsoft outage.

OPERATOR CONNECT

Select Atlantech as your Operator in the Teams Admin Center. The result is simplified, streamlined provisioning of users, auto-attendants, and call queues natively in Teams Admin Center. We assist with troubleshooting and support of Teams Calling and provide SBCs and all PSTN infrastructure, allowing you to save on hardware.
